

Toggle fixings KT

The powerful and universal fixing for cavity-space fixing.

OVERVIEW

Toggle fixings
KT

Suitable for:

- Prestressed hollow-core concrete slabs
- Gypsum plasterboard and gypsum fibreboards
- Chip boards and slabs made of perforated bricks
- Hollow concrete blocks etc.

For fixing of:

- Pictures
- Lamps
- Electric switches
- Key boxes
- Small wall-mounted shelves
- Towel rails
- Lightweight mirror cabinets
- Curtain rails
- Cable and pipe clips
- Cable trays

DESCRIPTION

Spring toggle KT

- Expands by spring force into any cavity.

Advantages/benefits

- KT toggles are specially designed for small cavity depths.
- All KT are fully zinc-plated and yellow chromated for good corrosion protection.
- Long threaded rods allow large wall thicknesses to be bridged

INSTALLATION

Type of installation

- Pre-positioned installation

Installation tips

- Observe the cavity depth and board thickness (see the table).
- KT toggles cannot be installed pointing downwards (e.g. floor).
