INSET SINK

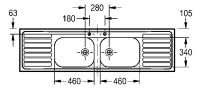

B20086D

A double bowl / double drainer inset sink manufactured from 0.91mm thick, austenitic stainless steel, satin polish finish. This sink has all four sides incorporating a rimmed edge profile, particularly suitable for insetting into a standard sized worktop. The bowls are prepared for a 38mm waste and overflow and can be supplied with waste, plug, chain and overflow as an extra. Two tapholes are provided, positioned centrally between the bowl, suitable for mixer taps only. Supplied complete with fixing clips. Double bowl / double drainer inset sink

ARTICLE NUMBER	
320086D	
EAN 7612979003970	
ECHNICAL DATA	
Material	stainless steel
Material code	1.4301 Chrome Nickel steel V2A
Material thickness	0.91 mm
Surface finish	satin finished
Bowl finish	satin finished
Gross weight	14.7 kg
ype of mounting	inset mounting
Vaste size	DN 32
ap ledge	yes
Drainer or storage	drainer
Overall width	1800 mm
Overall height	250 mm
Overall depth	500 mm
3owl – width	340 mm
3owl - depth	460 mm
3owl - bowl depth	250 mm
Drainer / storage board quantity	2
Vaste hole position	right centre
Vaste hole projection	212 mm
Drainer position	left & right

Fixing instructions for B20085L, B20085R inset sink, D20167N, D20168N inset wash hand basins

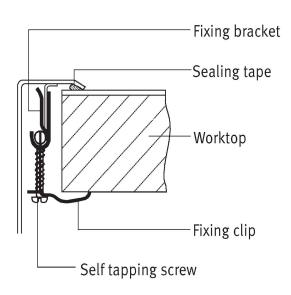

Code No.	Dimensions in millimetres		No.of clips to be fitted
B20085L/R	1000 x 490	Corners of cut outs	12
D20167N	400 x 380	may be radiused to	12
D20168N	452 x 370	25mm maximum	12

Fixing clips will accomodate worktops from 25 - 40mm in thickness.

- Cut out the aperture in the worktop ensuring that there is sufficient clearance between the bowl for any cabinet framework.
 NB Make sure that the position of the aperture does not unduly weaken the worktop.
- 2. Ensure that the edges of the sink are clean and dry. Remove the backing from the sealing strip and stick the strip to the edges as shown.
- 3. 12 fixing clips are supplied with each unit.
- 4. Place the sink in the aperture.
- 5. Locate the clips onto the fixing brackets.
- 6. Tighten the screw until the bowl or sink is secured in position.
 Do not overtighten as this may damage the unit.

Flange sealing
