

# Orange & Yellow Viz PF Insulator

## DESCRIPTION

- Industrial protective glove.
- Natural rubber latex supported thermal glove.
- Liner available either in fluorescent orange or yellow.
- 4 sizes available: 8, 9, 10 and 11.
- Trade unit: 6 pairs, 72 pairs in a transit case.

## CHARACTERISTICS

- Terry loop acrylic seamless liner, gauge 7.
- Palm fit black natural rubber latex palm fit coating with wrinkle finish.
- Fully coated thumb to protect the most vulnerable part of the hand.
- Latex knit wrist ensures snug fit.

## PERFORMANCES

- Fluorescent yellow or orange colour makes the glove highly visible. Immediate heat feeling when wearing the glove.
- Excellent wet and dry grip.
- Open back reduces perspiration build up.
- High flexibility and comfort.
- In compliance with the standards EN420 (General requirements), EN388 (Mechanical hazards) and EN511 (Cold) by the notified laboratory Centexbel.

## APPLICATIONS

- Ideal for various handling works in difficult thermal conditions (cold).
- General outdoor work, construction, railway...

## LIMITATIONS

- Do not use for handling liquids.
- Do not use with a rotating machine in which glove may get caught.

This glove is certified to comply with the essential requirements of European Directive EEC/89/686 of December 21st, 1989 relative to personal protective equipment submitted to CE type examination issued by a notified laboratory, who certifies the conformity of this glove with the EN standards to which it responds and certifies the performance levels obtained during tests.
