

MaxiCut®

Designed and developed as a breathable cut resistant glove, MaxiCut® combines cut protection with comfort, flexibility and dexterity for dry environments. Available in 5/6 sizes, 2 dip lines and 4 cut levels i.e. levels 2, 3, 4 & 5.

CutTech® technology platform

Innovative fibres - we source our base ingredients to develop our own unique high performance yarns and fibres that offer cut protection whilst maintaining high levels of comfort.

Reinforcement - between the thumb and forefinger, improves cut resistance and extends glove life in an inherently weak area.

AirTech® technology platform

360° breathability - patented micro-foam nitrile coating offers 360° breathability making it the most breathable cut resistant glove on the market.

ErgoTech® technology platform

Form, fit and feel - mimics the "hand at rest", reducing hand fatigue and increasing comfort.

Latest knitting technology - utilized to produce smooth and rounded fingertips, improving fingertip sensitivity.

Consistent liner penetration - from the nitrile, leaving only the soft liner resting against the skin.

GripTech® technology platform

Optimized grip - delivered through our micro-cup finish, allows for a controlled grip.

Comfort enhanced safety

HandCare® technology platform

All ingredients used in the manufacturing and construction of this product are compliant with the **REACH** legislation.

This glove has been laundered prior to final packaging making it **clean and safe** for use.

The **Oeko-Tex® Association** has evaluated and certified this product as skin safe from the second it comes into contact with the skin.

The **Skin Health Alliance** has awarded professional dermatological accreditation following review of the scientific dossier behind this product. View www.skinhealthalliance.org.

Industries

Basic materials

Appliances, agricultural chemicals, aluminium, automotive assembly, automotive aftermarket, brown goods, chemicals, OEM, oil and gas, metals and materials, metallurgy, mining, sheet metal work, steel and iron, packaging and containers, paper and pulp plastics, rubber and plastics, trucks and other vehicles, white goods.

Industrial goods

Aerospace and defense, general building materials, contractors, glass, construction, durable goods, industrial electrical equipment, metal fabrication, residential construction, small tools and accessories, textiles.

Services

Airport security, auto parts stores, building materials wholesale, grocery stores, road and railroad works.

Applications

Handling ceramics, corrugated sheets, non-deburred parts, glass panels, plastics injection moulds, sharp edged metal sheets, small sharp components

Logistics and warehousing

Maintenance

Primary, secondary and final assembly

Also available in the MaxiCut® range

MaxiCut®

Cut protection for dry environments. Cut **level 2** in palm and ¾ dipped, both with a reinforced thumb area.

MaxiCut®

Cut protection for dry environments. Cut **level 4** in palm and ¾ dipped, both with a reinforced thumb area.

MaxiCut®

Cut protection for dry environments. Cut **level 5** in palm and ¾ dipped, both with a reinforced thumb area.

MaxiCut®

Cut protection for dry environments. Cut **level 5** in palm, ¾ dipped and dotted versions. All with thumb reinforcement.

MaxiCut® Oil™

Cut protection in oily environments. Cut **level 2** in palm and ¾ dipped.

MaxiCut® Oil™

Cut protection in oily environments. Cut **level 3** in palm and ¾ dipped.

MaxiCut® Oil™

Cut protection in oily environments. Cut **level 4** in palm and ¾ dipped.

MaxiCut® Oil™

Cut protection in oily environments. Cut **level 5** in palm and ¾ dipped.
