Brushed steel

White

Nickel plated

Chrome plated

Control

This product requires the MiHome Gateway to function

MiHome Socket

The MiHome Double Wall Socket is a control only product. Each socket is individually controllable and you are able to use all the control features in the MiHome App including simple on/off, timers, and also geofencing on each socket individually. The sockets are also controllable via the MiHome remote control (MIHO003).

This product only receives communications from the MiHome Gateway and does not send a response therefore it is not recommended for use in safety critical applications.

The MiHome double wall socket comes in 4 colours:
White (MIHO007); Black Nickel (MIHO021); Chrome (MIHO022) & Brushed Steel (MIHO023)
