

# Rugged Transit Kit

## TWX7RTK

Large diameter rugged transit wheel attachment for the workcentre chassis, suitable for transit across uneven terrain. Grooved tread pattern running the circumference of the wheel, ensuring maximum traction at all times. Internal bush insert design keep the wheels perfectly concentric to the axle, minimising wear and tracking deficiencies. External wheel covers protect the axle and fastening components from dirt and debris. Durable ABS moulded rugged transit handle. Pivot mounted for user comfort whilst in use. Large diameter handle mount ensures forces are distributed evenly during transit.

## Technical Specification

<b>Product Height</b>	71mm
<b>Product Length</b>	465mm
<b>Product Width</b>	58mm
<b>Product Weight</b>	1.029kg

## What's in the Box

- 1 x Rugged handle
- 2 x Rugged wheels
- 2 x Washers
- 2 x Bolts
- 1 x Manual
