

FireAngel

HT-630T

10 Year Life THERMISTEK Heat Alarm

THERMISTEK™

10 year sealed in power pack
removes the need to replace the batteries

Diameter 132mm

Height 60mm

Weight 177g

Common features

- Thermistek predictive technology monitors the rate of temperature increase and alerts you to the danger quicker. Thermistor heat sensing element for accuracy, reliability and stability.
- 10 year sealed for life battery.
- Single button provides 'test' and 'silence' functions.
- Optional locking mechanism on installation.
- Class A1 fire detection (54°C - 65°C).
- Heat alarms are for use in places where a smoke detector is not suitable, for example where there are high ambient air temperatures, high humidity or in dusty and dirty environments. eg: garages, lofts and kitchens.

BS 5446-2:2003

Technical specification

Power	10 year sealed lithium battery
Technology	Thermistek
Alarm sound level	85dB at 3m
Operation	DC
Installation positions	Ceiling
Operating temperature	Class A1, 54°C - 65°C
Operating humidity	Up to 90% RH% non-condensing
Storage temperature	-20°C to 60°C
Storage humidity	Up to 93% RH non condensing
Warranty	10 year warranty
Master pack quantity	10
Approvals	Third party certified to BS 5446-2:2003 by BSi
Range	35m (over 200m in clear air)
EAN	0816317003029
Packaging	Full colour printed cardboard box, in outer boxes of 10
