

Buddha Barrier

Description:

The Buddha Barrier is a uniquely designed, completely anti-trip Water Filled Separator. At 800 mm in height, it creates a safer environment for pedestrians over traditional Water Filled Separators, as well as this, the Buddha Barrier can be fitted with a metal fence panel that creates a barrier over 1.8 m in height.

Features:

- Can be used either way due to Dual Reflective.
- Stable & Secure stacking.
- Completely Anti-Trip.
- Connect to one another using the S-Clip.
- Concave area can be used for spoil placement.
- Two can be faced together over exposed holes & damaged manhole covers.
- Capacity to hold 22 litres bringing the complete weight to 27.2 kg.
- Large Corporate Branding area of 300 x 170 mm.
- Compatible with the Melba Swintex Barrier range.
- Automatic overflow indication prevents overfilling.
- Manufactured from HDPE & 100% recyclable.
- Can be positioned at a connection of over 270°.
- Hole & Bung can be supplied if required for drainage.
- Fork lift entry.
- Patented Product.
