You'll need these basic tools:

Safety Recommendation

Always use a Step Ladder when working at heights. DO NOT over reach. Always move the Step Ladder so that you are in a safe working position. DO NOT hold or lean on the pole to support your weight.

We recommend you use two people for installation of larger poles.

Take care when using power tools, use of a Residual Current Device (RCD) is recommended. Always use eye protection when drilling. Beware of hidden pipe runs and cables.

No liability will be accepted for damage or injury caused by incorrectly installed or assembled product.

PLEASE KEEP OUT OF THE REACH OF YOUNG CHILDREN. SMALL PARTS - CHOKING HAZARD

PLEASE KEEP THESE INSTRUCTIONS AND THE BATCH CODE ON THE PACKAGING FOR FUTURE REFERENCE IF ANY QUERIES

Installation & Assembly

Image for illustration only, finial may vary

Measure the windows.

1

Measure the bracket hole position.

Reference line

2a

Drill the hole and fit the correct plugs if fixing on masonry wall.

2b

Fix the brackets.

2c

Calculate the length of the pole.

3

Adjust the length of the pole.

Slide the inner pole out of the outer pole, take care to leave the joining piece in place between two poles.

4

Slide on the rings, ensuring an equal amount each side. (leaving 2 rings aside)

5

Fit the pole into the brackets.

6

Tighten screw

Fit the finial. (place the remaining ring between the brackets and the finial)

7

Tighten finial screw
