Notes:
- Please read the installation instructions thoroughly before mounting the radiator
- Please choose appropriate wall fixings for the wall surface you are mounting the radiator on
- All dimensions are in millimetres

Recommendations
- For larger radiators it is recommended that for the safe movement and mounting of your radiator, two people are used to lift and support
- Ensure the installation and commissioning of the radiator is carried out in accordance with BS EN 7593:2006
- Your radiator carries a 10 year guarantee, failure to use a corrosion inhibitor in your heating system will invalidate the manufacturers warranty

Open 8:00 to 17:00 Monday to Friday
**Assembly Instructions**

**Vertical Panel Radiator**

1. **Radiator Orientation** – Ensure the red sticker is at the base of the radiator. A&B are your connection points.

2. **Measuring up.** Each vertical radiator has mounting points as detailed below.

3. **Using the centre points in Fig 1 and bracket placement in Fig 2,** draw pencil marks at 1,2,3&4 to indicate bracket placement.

4. **Align brackets and draw markings for wall plugs and screws (both bracket types illustrated).**

5. **Drill the necessary holes in the wall and secure brackets.**

6. **Fit air vent and blanking plug.**

7. **Fit radiator to wall. Plumb in the radiator and purge the air from the radiator using the air vent supplied.**
