Before you start adding this Calex Smart product, write down the name and password, including spaces and capital letters, of your WiFi network. Make sure you have a strong WiFi signal.

Note: This item only works on 2.4GHz WiFi network, not on 5GHz WiFi network. If you get a message that the product only works on 2.4 GHz networks, then you need to change your network's WiFi frequency to 2.4 GHz in the settings menu of the router. Please contact your internet provider for this.

1. Download the Calex Smart app from the Google Play Store, the Apple Store or scan the QR code.
2. Open the app. Are you using the app for the first time? Then follow the instructions on the screen to create your account.
3. Click on "+" shown in the upper right corner or "Add Device" and select the device among the list of products.
   Turn the device on. The on/off switch is located at the bottom of the device. You will hear a sound and the blue indicator light on the front will start blinking. The device is now in pairing mode.
   Input the WiFi password and click "Confirm". Scan the QR Code that appears in the app with the camera of the device. Hold the QR code steady at 10-15 cm in front of the camera. When the device makes a sound, follow the on-screen instructions. The set-up will be completed automatically. For more information, see our website: www.calex.eu
4. Reset: You may need to reset the product first. Locate the reset button and press it a sound is heard (5 seconds). The indicator light will start blinking. Then proceed with step 3.
