

DESCRIPTION

You know the problem:

paint marks, adhesive residue, lime scale, metal abrasions and tough stains on bath and shower basins, ceramic sanitary fixtures, sinks, tiles and floors.

Often, normal cleaning products fail to remove these residues or cause damage and discolouration to the material.

Bath Rubber helps you to eliminate these problems.

Bath Rubber's composition enables you to thoroughly remove deposits without scratching. Usable on enamel and ceramic surfaces. Not usable on acrylic or fiberglass surfaces!

The Bath Rubber can be used with water for improved effect.

- acid free
- solvent free
- environmentally safe
